Calle 23 is the brainchild of Sophie Decobecq, a French born biochemist and engineer. Sophie has been living in Mexico for the past 20 years and her love for agave and Tequila never stops growing. It all began in 1999 when Sophie moved to Mexico, where step by step she started to enter the world of Tequila.

It was in 2003 when she started working on her very own project, which would later become Calle 23. Calle 23 Tequila is produced in San Pancho from agaves from the

Highland region of Jalisco
(fields between Arandas and
Tepatitlan).

The Highlands region grows
plants that produce the
perfect tequila tasting profile
that Calle 23 wanted to
achieve - fruity, round and
spicy.

Tasting Note: "Sweet notes of
vanilla and chocolate from the
barrel aging, with a mocha
coffee flavour throughout."
