Cálem 2020 Vintage Port is made from grapes from the Upper Douro, which result in wines that are more intense, laden with black fruit aromas. The 2020 harvest was noticeably smaller compared to 2019 – as a result of the Covid-19 pandemic, combined with a hot, dry summer. The grapes harvested however were high in sugar content, allowing for longer fermentation. The wine was made in stainless steel “robotic treading lagares” and fermented with 50% of the stems.
