Since its origin, more than 100 years ago, Cusqueña has masterfully created a family of varieties, made with 100% malt and following the highest production processes, which have led it to become the premium beer of Peru. In addition to the Cusqueña gold we currently stock, a lager made from 100% pure malt, Saaz hops and triple filtering, which after following a delicate brewing process, results in an exquisite flavour, fine aroma and perfect intense golden colour; we invite you to enjoy Cusqueña Dark and Trigo (Wheat)
